

# Job Notification Form, IIT Delhi

## Company Overview

<b>Name:</b>	Barclays Global Service Center
<b>Website:</b>	www.barclays.com
<b>Company Type:</b>	MNC (Foreign Origin)
<b>Description:</b>	<p>Barclays is a transatlantic consumer, corporate and investment bank offering products and services across personal, corporate and investment banking, credit cards and wealth management, with a strong presence in our two home markets of the UK and the US. Our goal is to become the bank of choice by providing superior services to customers and clients and supporting our stakeholders via a commercially successful business that generates long-term sustainable returns.</p> <p>Our two clearly defined divisions, Barclays UK and Barclays International, provide diversification by business line, geography and customer, enhancing financial resilience and helping to contribute to the delivery of consistent returns through the business cycle. We have a strong core business with exciting prospects, well positioned to deliver long-term value for our shareholders.</p> <p>Consistent with the objective of delivering long-term sustainable value for all our stakeholders, we have developed our Shared Growth Ambition – our approach to citizenship and the sustainability of the business model we operate. The aim is to make decisions and do business that provides our clients and customers, and the communities which we serve, with access to a prosperous future.</p> <p>The delivery of our strategy is underpinned by the energy, commitment and passion of our people, and we are clear on our common purpose: to help people achieve their ambitions, in the right way.</p>

## Job Details

<b>Designation:</b>	Graduate Analyst
<b>Type:</b>	Analytics
<b>Place of Posting:</b>	Noida
<b>Job Details:</b>	<p>The graduates will conduct research and development in one or more stages of e-trading activities such as development of signals, trading strategies, pricing, hedging and portfolio management activities, and pre/post trade analytics. Ultimately the purpose is to create the best in class business logic and models for our electronic liquidity offering to clients and the associated analytics.
