Job Notification Form, IIT Delhi

Company Overview

Name:	Grofers
Website:	www.grofers.com
Company Type:	Private Sector
Startup:	Yes
Year of Incorporation:	5.1
Description:	We are building a world-class tech organization with elite engineers and change-agents who would spearhead this change. Currently, we are looking for engineers who are skilled, passionate, driven and a wee bit crazy (yes, crazy works!) to join our tribe. Our primary focus is on scale and cost optimization. The small tweaks you make, the processes you alter, experiments you run and the business decisions you drive will have reverberating effects on our ability to add value to our customers and keep them coming back for more.

Job Details

Designation:	Data Engineer
Type:	Information Technology
Place of Posting:	Gurgaon
Job Details:	

Role & Responsibilities:
From ETLs to Data Products. Transactional to socio-economic spatial data. We batch, we stream and hack our way to make sure that data is available to those that need it at Grofers. Our platform and tools help data analysts, data scientists and business stakeholders drive decisions using data at Grofers.

You will work alongside a team of engineers, data analysts and data scientists to maintain and evolve our data stack, pipelines and products.

Desired skills & abilities:
We expect you to know python really well and find yourself at home when working from a terminal. What we value most is a thirst for knowledge and the ability to learn quickly and smartly. This is best expressed by a side project / open-source contribution that you are really proud of and will happily show-off at the drop of a hat.

Bonus if you can do these:
Write blogs
Speak at conferences
Member of/Lead a special interest technology group in your college
